Mr Max Lau

In a competitive business world, I firmly believe that one must continuously improve and equip oneself. Through the study of DMS, I have become confident in my ability to carry out important tasks required in my job. This was not only crucial to my career development but also to my personal growth. Joining DMS has undoubtedly proven a wise decision.

Dr Joe Leung

Apart from academic disciplines, DMS puts a lot of emphasis on real-life application. The satisfaction therefore comes not only from learning theories but also from gaining the ability to apply them. As fellow classmates are from diverse industries, what DMS provides are opportunities of networking, as well as sharing practical experiences and exchange of ideas. These I find invaluable and most useful to my career.

Mr C K Cho
